If you have a kid who loves to build and make something out of nothing, this is the camp for them. In this camp we will go over the various simple machines and how they were used historically. Our campers will then have a chance to use them in daily engineering challenges. Bring your thinking cap to this program!

Come spend some quality time in the outdoors as we learn about the wonderful world around us. In this program we seek to instill in our campers a love for nature. We will be learning about plants, animals, wilderness survival, and natural occurrences that happen in the world around us. It's a beautiful world out there, let's explore it together.

SCIENCE (entering grade 1-5) \$325/\$380

Break out the lab coats and goggles, it's time to head to the lab. Science camp will put your campers in thinking mode as we use inquiry and exploration to learn about popular science concepts.
